HGTV Designers' Challenge Powder Room

Features as follows:

- The flooring of this powder room consists of hand painted, hand made 4" X 4" tiles in five Tuscan inspired colors of maize, sand, cobalt, soft yellow and terra cotta.
- A hand made custom mirror is framed in painted tiles with whimsical motifs reflecting the same glazed colors as the floor. A rendition of the outside of the client's home was painted into the bottom frame tiles of the mirror.
- A single dropped sconce above the mirror creates an interesting counterpoint over a traditional white pedestal sink.
